

HSBC ETF Capital Markets Team

A dedicated team on hand to help with ETF execution

For Professional Clients Only

How can we help?

We understand that simple and cost-efficient executions of your ETF trade can be just as important as the performance of the ETF itself. As such, we are on hand for all enquiries relating to buying or selling of the HSBC ETFs. The team is constantly monitoring liquidity and pricing and communicating with Authorised Participants and Liquidity Providers. We take care to understand your specific requirements and provide expertise to help in your decision-making.

Our services

Pre-trade analysis

We can provide a liquidity analysis looking at both secondary and primary market liquidity as well as colour on market impact and expected trade costs for buy, sell and for switch trades

APs and liquidity providers

We have connections with all key ETF liquidity providers and we can facilitate access to axes, inventories and ETF distribution trades

Secondary market surveillance

We continuously monitor our ETF spreads, volumes and trading data across all exchanges and listing venues

Market intelligence

We are your eyes and ears in the market place and as such we can provide colour on ETF flows and global trends

Important information

For Professional Clients only and should not be distributed to or relied upon by Retail Clients.

The material contained herein is for information only and does not constitute legal, tax or investment advice or a recommendation to any reader of this material to buy or sell investments. You must not, therefore, rely on the content of this document when making any investment decisions. This document is not intended for distribution to or use by any person or entity in any jurisdiction or country where such distribution or use would be contrary to law or regulation. This document is not and should not be construed as an offer to sell or the solicitation of an offer to purchase or subscribe to any investment.

The value of investments and any income from them can go down as well as up and investors may not get back the amount originally invested. Where overseas investments are held the rate of currency exchange may also cause the value of such investments to fluctuate. Investments in emerging markets are by their nature higher risk and potentially more volatile than those inherent in some established markets. Stock market investments should be viewed as a medium to long term investment and should be held for at least five years. Any performance information shown refers to the past and should not be seen as an indication of future returns.

To help improve our service and in the interests of security we may record and/or monitor your communication with us. HSBC Global Asset Management (UK) Limited provides information to Institutions, Professional Advisers and their clients on the investment products and services of the HSBC Group. Approved for issue in the UK by HSBC Global Asset Management (UK) Limited, who are authorised and regulated by the Financial Conduct Authority. HSBC Asset Management is the brand name for the asset management business of HSBC Group, which includes the investment activities provided through our local regulated entity, HSBC Global Asset Management (UK) Limited. In Israel, HSBC Bank plc (Israel Branch) is regulated by the Bank of Israel. This document is only directed in Israel to qualified investors (under the Investment advice, Investment marketing and Investment portfolio management law-1995) of the Israeli Branch of HBEU for their own use only and is not intended for distribution.
